

### Module Handbook

Module Name:	Chemistry for Anorganic Drugs
Module Level:	Bachelor
Abbreviation, if applicable:	KII401
Sub-heading, if applicable:	
Courses included in the module, if applicable:	
Semester/term:	1 / Fourth year
Module coordinator(s):	Prof. Dr. Purwanto, Apt.
Lecturer(s):	Prof. Dr. Purwanto, Apt.
	Dr. Bambang Tri Purwanto, MS., Apt
	Dra. Nurul WD, MSi., Apt
Language:	Bahasa Indonesia
Classification within the curriculum:	<del>Compulsory Course</del> /Elective Studies
Teaching format/class hours per week during the semester:	100 minutes lectures, 13 lecture classes/semester
Workload:	Total 22 hours a semester
Credit Points:	2
Requirements:	Students must have taken Biochemistry (BIK201) and Pharmacology-Toxicology I (FAT301) courses.
Learning goal/competencies:	<p>Knowledge</p> <ul style="list-style-type: none"> <li>- To understand the concept of inorganic medicine used in therapy.</li> </ul> <p>Skills</p> <ul style="list-style-type: none"> <li>- Discipline, honesty, communication and attentive</li> </ul> <p>Competence</p> <ul style="list-style-type: none"> <li>- To understand and able to apply the concept of chemistry in inorganic medicine.</li> <li>- To understand and able to explain the relation of inorganic medicine with its mechanism in causing therapeutical effect.</li> <li>- To understand and able to explain the application of inorganic medicine in patient treatment.</li> </ul>
Content:	Compounds of inorganic medicine which affecting physiological acidity (pH), classification of gas for inhalation dosage form, electrolyte for systemic and/or topical use
Study/exam achievements:	<p>Student are considered to be competent and pass if at least get 50% of maximum mark of the exams based learning.</p> <p>Final score (NA) is calculated as follow :</p> <p>50% Exam I + 50% Exam II</p> <p>Final index is defined as follow :</p> <p>A : 100 &gt; NA &gt; 75            AB : 75 &gt; NA &gt; 70            B : 70 &gt; NA &gt; 65            BC : 65 &gt; NA &gt; 60            C : 60 &gt; NA &gt; 55</p>

	D : 55 > NA > 50 E : 50 < NA
Forms of Media:	Slides, LCD projector, whiteboard.
Literature:	<ol style="list-style-type: none"> <li>1. Farrell NP, 1999, <i>Uses of Inorganic Chemistry in Medicine</i>, Cambridge: The Royal Society of Chemistry.</li> <li>2.
